ABOUT ME

Software developer with solid experience in programming and systems architecture. Mastery of languages such as C#, PHP and Python, as well as modern frameworks for web and mobile development. I am looking to join a high-performance team where I can contribute with innovative solutions and continue to hone my skills. A versatile person capable of performing several tasks simultaneously. With extensive experience in work environments where commitment and the ability to work as a team are valued. I am characterized by my dynamism, proactivity and enthusiasm. I have good digital knowledge. I am looking to develop professionally.
